E-commerce specialist and inventory manager with hands-on experience running online sales and stock operations, and a Computer Science student at CSUN with coursework in Java, Python, MySQL, HTML and CSS. Reliable, adaptable and detail-oriented, and willing to take on whatever a team needs to succeed.

SKILLS

Technical: Java, Python, MySQL, HTML, CSS, Shopify

Operations: Inventory management, data entry, POS systems, time management

WORK EXPERIENCE

E-Commerce Specialist / Inventory Manager April 2020 – Present

Good See Co. – Venice, CA

- Manage the company's Shopify storefront and the inventory behind it, from product creation to shipment
- Create and maintain product listings, manage online inventory levels, and handle order shipments
- Perform accurate data entry for incoming and outgoing inventory shipments
- Record shortages and discrepancies to keep inventory records current and reliable
- Monitor stock and adjust inventory levels to match demand

IT Intern December 2019 – March 2020

Pacific Theatres Corp. – Chatsworth, CA

- Assisted with technology rollout and maintenance, and supported team-based IT projects
- Tested new point-of-sale (POS) features and updates before release
- Prepared and installed new POS systems at multiple theater locations

Crew Member October 2018 – December 2019

Pacific Theatres Corp. – Chatsworth, CA

- Worked across the box office, concessions and back-of-house areas of a busy theater
- Took orders, prepared food, and processed customer payments accurately
- Stocked pallets and verified inventory counts
- Collaborated with teammates to complete orders and maintenance tasks
